

# PRINT OUT BINGO

## WHAT YOU'LL NEED:

An intercom / warden call system  
Bingo cards (printable ones attached)  
Bingo machine (optional)  
Pens / bingo stampers  
Prizes

## HOW TO PLAY

Print as many bingo cards as you need. They've been left blank for players to fill in their own numbers. Don't forget to let them know what numbers they can choose from eg 1-75, 1-90 etc.

You can also print out the optional instruction cards to give players everything they need to join in. If these don't quite fit how you'll be playing, you can also make your own!

Give players plenty of notice before a game is about to begin. Use the warden call system to call out the numbers. If you don't have a bingo wheel you can use a random number generator online. When a player gets a line or a full house, they can pull their cord to alert you.

Once the game is over, you can place prizes outside the winners' doors.

## How to play

1. Fill the boxes with numbers between \_\_\_\_ and \_\_\_\_.
2. Listen to the numbers being called out over the speaker.
3. Let us know you've got a line or a house by pulling the cord.
3. Lucky winners will receive a prize outside their door!

**Good luck!**
